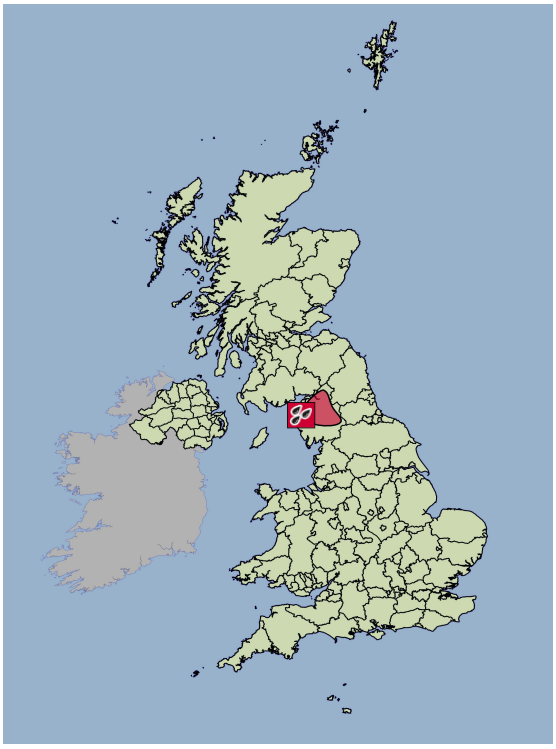
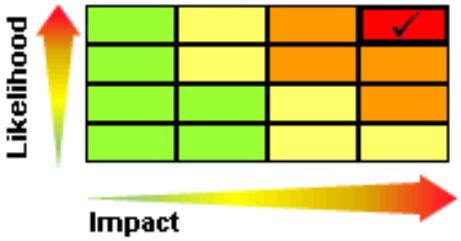
National Severe Weather Warning Service





Chief Forecasters Assessment
A slow-moving frontal system is bringing a prolonged spell of heavy rain and strong winds. Further rainfall totals in excess of 150 to 200 mm are expected locally over some prone mountainous areas. Given saturated conditions and high river levels from recent rainfall, further flooding is expected.

The Met Office have issued a **Red Warning** of **Rain**

Valid from **11:15 on Sat, 05th Dec 2015** until **06:00 on Sun, 06th Dec 2015**

Heavy and persistent rain currently affecting the warning area is expected to become heavier during Saturday afternoon before clearing southwards during the early hours of Sunday.

In view of flooding and further disruption to transport being expected take action to remain safe and protect property.
